THE TREASURY PROGRAMME FOR OCTOBER. The Treasury programme of gold sales and bond purchases for the month of October is as follows :-BOND PURCHASES.

Total.....\$5,000,000 BOURS OF BUSINESS OF THE GOLD BOARD. The Gold Exchange, at a special meeting held to day, decided to limit the time of business daily to interval between ten o'clock A. M. and four s'clock P. M., except on Saturdays, when the adjournment sha'l take place at three o'clock. Dealngs on the street or elsewhere before or after the ours fixed are not only devoid of legality so far as the Board is concerned, but punishable by fine.

The money market was stringent under the re-newed application of artificial means, the clique having withdrawn a million dollars from the banks on Saturday and withholding to-day all the money they could control. The lowest rate on call was 7 per cent and the highest 1-16 per cent, equivalent to nearly 23 per cent. The inquiry lasted until mearly half-past three o'clock, when the nealings closed at 1-32 a 1-16 per cent. The quotations for prime commercial paper ranged from 8 to 12 per

was dull and heavy, and actual business was on the sis of 107% for prime bankers' sixty-day sterling and 108% for sight bills, although the leading drawers contrived to ask 107% a 107%. There was conerable activity in bills on Paris owing to their

GOLD STONG-113% a 114%. The gold market was strong, under a renewal of the operations of the clique, whose doings in the money market have been noted above. The advance was helped by the continued limited programme of Treasury gold sales and by a London lespatch stating that Spain was about to demand lemnity for her losses by American filibusterism in Cuba, making her appeal to a court of the European nations, after the manner of the Geneva arstory had less effect abroad than at home; for subsequent to its receipt here it was announced that % a % per cent. The course of the market is shown

fat to 3-32 for borrowing. The operations of the Gold Exchange Bank were as follows:-

interest and \$4,000 on account of redeemed fivetwenties, and cancelled \$790,000 of the called three per cents, on which interest ceased to-day.

The government bond market was strong and higher, prices advancing % a % per cent in sympa-thy with the upward movement in gold, which innuence was furthermore helped by the rise of five-twenties in the foreign market. The activity of oney repressed, however, the buoyancy which would otherwise have undoubtedly attended this advance, and the market left off quiet at the improvement as follows:-United States currency sixes, 112 a 1125; do., 1881, registered, 114 a 1145; so., do., do., coupon, 115% a 115%; do. five-twenties, registered, May and November, 114% a 114%; do. do., 1862, coupon, do., 114% a 114%; do., do., 1864, do., do., 114% a 114%; do. do., 1865, do., do., t16% a 115%; do. do., 1867's, registered, January and July, 113½ a 113½; do. do., 1865, coupon, do., 113¾ a 113½; do. do., 1867, do., do., 113¾ a 114; do. do., 1868, do., do., 114 a 114½; do. ten-forties, registered, 107% a 108%; do. do., coupon. 107% a 108%; do. 8ves, 1881, registered, 110% a 111; do. do., do.,

THE RAILROAD BONDS.

The printed list of the Stock Exchange appeared sall. The new Delaware, Lackawanna and Western convertible loan was quoted 99 a 102. Buyers of this security should refuse all bonds numbered over 3,000, as the original loan was limited to \$3,000,000 in the advertisements, but increased to \$5,000,000 after the bids were opened. The Board has ruled, therefore, that the bonds only of the first

SOUTHERN SECURITIES DULL. The Southern State bonds were generally dull and bout steady. The Tennessees were moderately active and firm. The old South Carolinas were heavy. STOCKS DULL AND LOWBR.

The "bear" clique held almost undisputed control of the stock market from the opening, and under their manipulation prices declined, the depression at one time being as much as % a 1 per cent for some of the leading stocks, although the decline generally was hardly more than 1/2 per cent. The chief business was in Pacific Mail, which declined from 74% to 78%, but rallied eventually to 74. The clique contented themselves with keeping money worth a small consideration instead of repeating their usual plan of exacting extravagant rates, the effect of which has been unusually to excite a stub-born opposition to them more injurious than if the speculative sentiment were allowed to be worked ppon by

HOMEOPATRIC DOSES of tight money. Besides which extreme rates tempt the shipment hither of money from Boston, Philadelphia and other cities. The calmer and cooler manner in which the clique have gone to work has been rather a feature of the opening of the week, and has disconcerted their opponents not a little. They are, however, still heavy lesers by their recent transactions, and some sales of Pittsburg to-day at a decline from 881/4 to 871/4 are believed to be a further inroad upon those "saltedagainst a rainy day and are now compelled to part with for money. One of the "bears" in Panama settled on Saturday at a loss of \$25,000. He sold a thousand shares at the equivalent (making allow-ance for the dividend) of about 121 and covered at 146.

of \$5,000 was made the same day that Pacific Mail would seil at 100 before it sold at 70. Erie went off to 47 %, in sympathy with the London market and the general heaviness here. The approach of the Western elections has a tendency to check business in the stock market and in Wall street generally, especially as the prospects of the success of the administration (in the eyes of Wall street) are not so clear since Mr. Greeley has retracted his demand for immediate specie payments and the unsettling of the chances of Hartranit in Pennsylvania.

Monday, Sept. 30-6 P. M.

The commercial cudook continues to be of the most promising character, notwithstanding the fact that the scarcity of money and high rates of discount operate as direct hindrances to mercantile enterprise. The export movement continues without visible abatement, while in some commodities—notably breadstuffs, &c.—the move-ment is on the increase. The carrying trade has seldom been so brisk or the rates of freight so remunerative, and yet the shipments of the leading articles are large and steadily increasing. The petro-leum trade, which has been languishing for some time past, shows decided signs of recuperation, and vessels suitable for this business have come to be in fair request once more, and unless prevailing indi-cations prove delusive we shall soon be called upon to chronicle a more active export movement in this leading article of merchandise than we have seen for some time past. The movement in grain received a fresh impetus to-day, and, notwithstanding freight room was scarce and dear, purchases of both wheat and corn were on a literal scale and at full prices. Corn in particular was freely purchased, both on the spot and in advance of arrivals, at very full prices. There were purchasers for November delivery at higher prices than purchasers for November delivery at higher prices than had before been paid; buyers thereby evincing continued confidence in the future. It is abundantly demonstrated that the grain crops of Europe are deficient, and a good export movement hence is accordingly confidently reckneed upon, and the more sagacious among the exporters have already set about making good the deficiency of the European harvest by liberal shipments from this side; taking advantage of the comparatively low prices current, particularly of corn, which is going forward in large quantities. The movement in provisions continues very slow, though on the whole prices are very well sustained. On the street there was a good business, and the commercial outlook is bewas a good business, and the commercial outlook is be-coming more and more promising with the lapse of every succeeding week. In groceries there was no movemen of particular importance, yet the market for most arti-cles remained very firm. Petroleum took a decided up-ward stride to-day, on account of the cessation of opera-tions at the oil producing districts, they having stopped operations for thirty days. In the naval store trade the inquiry was principally for spirits of turpentine and the

for export at about former prices, though if anything the market ruled in buyers' tavor throughout the day and closed decidedly weak. The annexed quotations show no changes as compared with Saturday's figures. Future deliveries were also easier and 'go, per lb. lower. The sailes sum up as follows:— To-Day, Sat, Ecc'g, Total, 1,083 208 1,291 ...1,083 208 1,291 ...1,083 18
